

Triad Foundation

The Triad Community School District #2 Foundation, a non-profit organization, was formed to help increase the educational opportunities for the children of our community.

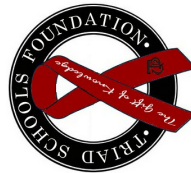

The Foundation allows individuals and businesses to make tax-deductible contributions or bequests for the purpose of providing special equipment, scholarships and programs that may not be available in the public school. The business and affairs of The Foundation is managed by an eight member Board of Directors.

Charitable giving may offer many benefits for the donor, especially in the area of taxation. Individuals making contributions may reduce income tax and estate tax, and sometimes provide income to the donor.

Individuals or organizations making contributions to the Foundation are making an important investment in our community and supporting our most valuable assets - the children.
