Graphics submitted larger than the specifications shown will automatically be reduced. Images that don't reduce to the exact dimensions shown may result in some cropping or stretching in order to fit in the allotted space requirements. We will do our best to resize and place images and photos as best as possible without a loss of quality.

Graphics submitted smaller than the specifications shown on this page will result in the image being stretched and cause it to become fuzzy (pixelated).

Submitted images can be either in landscape or portrait mode.

Please submit in JPG or PDF format for best results.
